

MP-102: Bariatric (Weight-Loss) Surgery

Bellcourt Medical Policy | Version 2 | Status: ACTIVE | Effective for dates of service 2025-07-01 until superseded

Field	Value
Policy number	MP-102
Service code(s)	BHA-SURG-4310
Applies to	All clients administered by Bellcourt unless the client's plan document or delegation addendum states otherwise
Owner	Clinical Policy Committee
Version	v2

1. Purpose and scope

This policy sets out the clinical criteria Bellcourt reviewers use to decide whether the service described in this policy (Bariatric (Weight-Loss) Surgery) is medically necessary. It is applied to prior authorization requests where the date of service falls within the effective period stated above. A client's plan document may exclude this service or impose additional requirements; plan provisions are checked first.

2. Definitions

Medically necessary: services that are appropriate and consistent with the diagnosis, in accordance with generally accepted standards of medical practice, and not primarily for the convenience of the member or provider.

3. Coverage criteria

The service is considered medically necessary when the criteria below are met, read together using the AND / OR connectors shown:

- 1 BMI of 40 or greater; OR BMI of 35 or greater with at least one obesity-related comorbidity (type 2 diabetes, hypertension, obstructive sleep apnea, or dyslipidemia); AND
- 2 A pre-operative psychological evaluation clearing the member for surgery.

4. Not medically necessary / limitations

- BMI below 35.
- Absence of psychological clearance.

5. Documentation requirements

Height, weight and BMI; comorbidity documentation; psychological evaluation report; weight-management program records where required.

If required documentation is missing, the request must be pended and the provider contacted for information. It must not be denied for lack of documentation until the information request has gone unanswered within the

regulatory timeframe.

6. Version history

Version	Effective	Summary
v1	2024-01-01 to 2025-06-30	Initial version.
v2	2025-07-01	The 6-month supervised weight-management program requirement was removed, consistent with current specialty-society guidance.
