

UM Operations Memo 2026-04

From: Systems Team | To: UM Operations | Date: March 9, 2026 | Re: PACE criteria screen update schedule

The Q1 criteria screen release has slipped because of the Riverbend reporting project. Revised schedule:

Screen	Policy change it reflects	Planned release
Lumbar MRI (MP-101)	v2, effective 2026-01-01	Q3 2026
CGM (MP-103)	v2, effective 2026-01-01	Q4 2026
TKA (MP-106)	v2, effective 2026-01-01	Q4 2026
Bariatric (MP-102)	v2, effective 2025-07-01	Q4 2026
SCS trial (MP-110)	v2, effective 2025-10-01	Not scheduled

Until then, screens show the previous criteria. Reviewers should check the UM Library for the current policy text.
